

*Fanello*<sup>TM</sup>  
FLOORS OF WOOD

*The creation of a magnificent Old World floor is a labor of love and a rare dedication to the artistry of hand craftsmanship. It is our generations-old legacy to take your expectations and carefully craft them into a masterpiece that has no equal.*

*All of our creations are a product of nature, with each board individually hand hewn and bench finished to recreate the patina of time.*

*From the subtle tones of nature to brilliant explosions of colour, Zanella floors provide an aura of natural charm and elegance that will turn any ordinary room into something well beyond.*

*For those who appreciate the best, and to those who accept no less, we offer Zanella...*

*...timeless craftsmanship that endures.*

*The traditions that inspired the Zanella line are faithfully carried through the entire production process. From rough lumber to the finished product, the hands of Zanella artisans control every aspect. We do not mass produce our floors which allows the magnificent art of hand craftsmanship to survive. Each floor is individually made to order. The end result is a timeless, one of a kind masterpiece that rewards both the craftsman and customer alike.*

**Specially Selected Materials** - In a world of engineered floors, Zanella floors are engineered by mother nature. Every floor begins with a stringent hand selection process. This ensures instant character and a fascination to the eye that are unmistakable signatures of Zanella. Long lengths and standard widths of 3", 4", 5", and 6" provide an authentic plank floor and a variety of design possibilities. *(Custom widths are available upon request.)*

**Hand Hewn** - Thoughtfully recreating Old World methods, our artisans hand craft each individual piece of wood to bring out its own inherent personality and the impression of age. From the remarkable surface preparation to artfully pillowed edges and ends, each of our floors is antiqued entirely by hand. It is this exceptional attention to detail that make each Zanella floor a treasure of natural beauty.

**Old World Family Formulas** - Our environmentally friendly formulas have been perfected over many generations and do not contain any stains or dyes. The colors you see are a result of interaction with the woods themselves. The essence of every Zanella floor, the deep rich tones and unique watermarks, simply cannot be replicated by any surface applied stains or production finishing techniques.

**Bench Finished** - Zanella restores the use of wood flooring to its traditional role as an art form while enhancing its practicality in use. Every board goes through our own twenty-one step finish process that is impossible to duplicate on location. The timeless appearance of every Zanella floor is protected by a durable urethane finish that provides years of faithful service with minimal maintenance.

**Ease of Installation** - Zanella floors can be installed by any competent wood flooring professional and walked on the same day. Like a fine piece of furniture, the dramatic beauty and finish has already been achieved prior to delivery. *(See Installation and Warranty Guide for details.)*

**Options** - A full range of custom products and services are available to complete the most demanding design challenges. These options include Zanella finished installation accessories and stair parts, custom flooring patterns, borders, and round or square pegging. *(See inside back cover.)*

## *An important word about our wood floors . . .*

*The Zanella finishing process does not rely on artificial stains or dyes to create its unique look and feel. It is the natural coloration of each individual piece of wood that produces the final product.*

*Like a finger print, each piece of Zanella flooring, as well as the finished floor, is unique. Wide variations in character markings, color, and grain should be expected and appreciated for their inherent beauty.*

*Photos in this catalog and Zanella display boards are for reference use only. The actual floor character and colors will vary.*

### **Old World Formulas**

with deep rich tones and unique watermarks, cannot be replicated by stains, dyes or production finishing techniques. This timeless appearance is protected by a modern, durable finish that will provide years of faithful service with minimal maintenance.

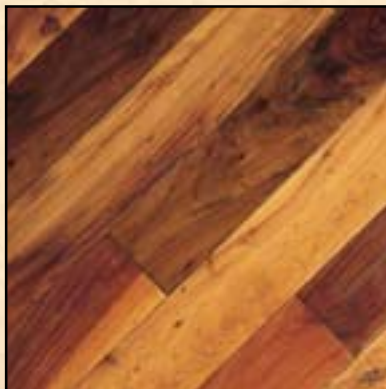

### **Square or Round Pegging Options**

enhance a floor's appearance and are the perfect finishing touch for a Zanella floor. Stock peg hardwood species include Walnut, Hickory/Pecan and White Oak. Other species are available upon request.

**Natural Characteristics and Wood Patina** are important elements of the charm and unique character of the Zanella Collection. Individual boards are carefully selected by hand for their unique wood grain, character, and colour. The end result is a floor like no other.

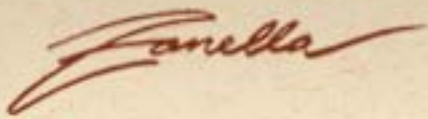

### **Hardwood Pegs**

are hand hewn & bench finished and include a slight crown that provides an authentic Old World pegged look. Pegs can be pre-installed or shipped loose for authentic screw down installations.

# INDEX TO THE ZANELLA COLLECTION

**Hickory/Pecan**  
*An extremely durable hardwood with a long prominence in furniture and architectural uses. It has character marks that compliment a range of colours from creamy white to reddish-browns.*

Robusto

Terrano

Fumoso

**Walnut**  
*Known as the King of Hardwoods, it has dark, rich tones and lustrous depth. Moderately hard with a blend of colours from sandy-brown to dark chocolate.*

Dolce

Bruna

Carbonella

**Rift & Qtr White Oak**  
*The finest of oaks, it has graced exquisite floors around the world. Colour ranges from sandy-blonde to medium brown tones with a mix of unique "tiger stripe" figuring and straight, uniform grain.*

Cremoso

Grano

Castanegra

**Plainsawn White Oak**  
*This wood has a long and illustrious history furnishing homes through the ages. Long rays of grain with interesting cathedral patterns with character marks and knots.*

Alluro

Branzata

Daro
